I wish that the government could somewhere provide for an experimental breeding station of cross-breeds between buffalo and the common cattle. If these cross-breeds could be successfully perpetuated we could have animals which would produce a robe quite as good as the old buffalo robe, with which twenty years ago every one was familiar, and animals which would be so hardy that I think they would have a distinct commercial importance. They would, for instance, be admirably suited for Alaska, which I look to see developed astoundingly but because of its agricultural and the bride's friends. pastoral possibilities."

Ohio Tobacco Growers Join the Kentucky Burley Association to Fight the Trusts.

[Enquirer.]

The Farmers and Tobacco Growers' Association, which was recently formed in Kentucky in opposition to the great tobacco manufacturing corporations, encouraged by the success attained in organizing a growers' combine, is now extending the sphere of action to include the entire burley leaf belt, and similar bodies are about to be formed in the river counties of Ohio, Indiana and West Virginia.

The first of these was organized at Georgetown, Brown County, O., Thursday by the Executive Board of the Kentucky Association, consisting of Messre. Gardiner, Mont., April 25.-Presi W. B. KELLEY--CHILDS NUPTIALS.

Mayslick Physician Weds One of Ashland's Pretty and Estimable Daughters.

[Ashland Independent April 22nd.] The picturesque Presbyterian Church, at whose altar many brides and grooms of social prominence have plighted their troth, was comfortably filled this morning with guests for the marriage of Miss Mabel Jean Childs, of this city, and Dr. J. H. Kelley, of Mayslick, Mason County. The chancel was made beautiful with within the next decade or two, not blooming plants, ferns and palms, the only because of its furs and fisheries, decorating being performed by some of

> The bridal party entered to the strains of Mendelssobn's wedding march, played by Miss Baugh, a pretty young musician of this city. As the wedding march sounded, little Robert Ogden, followed by the ushers-County Clerk E. E. Lawrence, Guy Ogden, Will Robb and J. R. Kelley, a brother of the groom-led the way down the aisle. Then followed the young couple whose fate was so soon to be united.

MISSING PAPERS

It is Thought They Were of a Confidential Nature and Not of Record.

THE DOCUMENTS MAY BE RETURNED

The Tyners' Attorney Told the Postmaster General That He Could Look Over the Papers.

It Is Unlikely That Any Further Serlous Effort Will Be Made to Regain the Papers Taken By Mrs. Tyner.

Washington, April 25.-Attorney General Knox Friday expressed the opinion to Postmaster General Payne that unless there is something to show whether the documents taken from the safe of Assistant Attorney Genor private papers, no case would lie. warded to him by the post office department. Mr. Payne replied by stating the circumstances attending the taking of the papers and the fact that most of the papers filed in such government safes are of a confidential nature and therefore are not of record. There will be a conference Saturday between Mr. Payne and Mr. Knox. The position taken by the post office department now is that it has done all that is possible to do to establish the facts in the case; that the impropriety of the act is of equal imwith the department of justice. It is known by the postmaster general that the safe from which all the papers were taken has contained valuable official papers at various times, and that Mr. Tyner has so stated. It is not known, however, whether any such papers were in the safe since Mr. Tyner last had access to it.

Attorney Ross Perry, of this city, counsel for the Tyners, called on the to have the postmaster general or any representative of his department look over the papers at the Tyner residence. Mr. Payne talked with Mr. Perry at some length and pointed out to him that the Tyners were given an opportunity immediately after the papers were taken to open them in the presence of the officers of the department and had refused to show them or to indicate to the government representatives even the nature of the papers. Mr. Payne was asked subsequently if he declined Mr. Perry's proposition, but said he could not discuss that phase of the question. It may be stated, as the department's attitude, however, that it will not give much weight to any papers that are returned, and that it is unlikely any further serious effort will be made to recover the papers in view of the fact that there is no way of showing whether any papers returned were the ones actually taken.

BEFORE THE GRAND JURY.

Several Indictments Returned as the Result of Lee's Testimony.

St. Louis, April 25 .- Lieut. Gov. John A. Lee, who returned from Chicago Thursday night, appeared before the grand jury Friday when that body resumed the investigation of charges of boodling in the general assembly in connection with baking powder legislation. Several indictments were returned by the Cole county grand jury as the result of Mr. Lee's testimony at Jefferson City, and it is predicted that a number will be handed down here.

THE HOWARD MURDER TRIAL.

The Defense Closes and the Case Is Nearing the End.

Frankfort, Ky., April 25.-The prosecution Friday had its red letter day in the trial of Jim Howard. The defense closed its direct evidence at the morning session and the remainder of the day was devoted to rebutal testimony. The result is that Howard's alibi, as in former trials, has been badly shattered. The case will go to the jury Tuesday or Wednesday. Twenty-five or thirty witnesses were heard Thursday. N. H. Witherspoon, Youtsey's brother in-law, did not respond when called. The failure of Mrs. Youtsey to testify probably accounted for his absence. Robert Triplett, Wesley Whittaker and Dan Vaughn were probably the most important witnesses of the day. The investigation into the alleged

rifling of United States mail either here or elsewhere resulted Friday in the arrival here of Post Office Inspectors Bailey, of Philadelphia, and Kile, of Louisville, who will assist Inspector Craighead, of Cincinnati, already here. They are working on the complaint which is said to have been filed by Postmaster L. F. Sinclair, of George-This statement was made after Mr. town. There is a growing belief that Knox had gone over the papers for there is more sensation than anything else in the matter.

Robert Triplett corroborated Hotel Keeper Pence, who swore than Howard was not in his office when the news came that Goebel was killed. Wesley Whittaker, upon whom the prosecution laid hopes of making a star witness, and by whom it was expected to prove that Howard wore a short mustache, was shown up by the defense as an ex-convict. The testimony will be concluded Saturday.

Death of Mrs. Case.

Newport, Ky., April 25.—A pathetic scene was witnessed Friday when the aged father of Joseph Case, whose mysterious disappearance from this city one night about three years ago was the subject of much talk, implored a newspaper representative to use the columns of the paper in an effort to inform the son that his mother lay cold in death at their home, 913 Isabella street. Case's father does not think he is dead.

RUSSIA'S DEMAND.

Joint Protest to Be Sent by the United States, Great Britain and Japan.

THE SOVEREIGNTY OF MANCHURIA

Czar's Claims in Connection With it Utterly Abrogates the Principles of the Open Door.

It Is the Belief in Official Circles That Russia Has No Intention of Evacuating the Dispted Territory.

Washington, April 25 .- The United States government will make a vigor ous protest through the proper diplo matic channels against Russia's de mands upon China for the practical retention by Russia of the province of Manchuria. At the state department this step by the czar's country is re garded as a breach of faith and an attack upon the American intention of maintaining the integrity of China which was announced more than two years ago.

London, April 25. - It is learned that there is in contemplation a forcible joint protest on the part of Great Britain, the United States and Japan against the Russian demands in the matter of the sovereingnty of Manchuria.

Sir Ernest Satow, British minister to China, in a dispatch to the foreign office, confirmed the synopsis of the note addressed to China by M. Plancon, Russian charge d'affaires at Pekin. Further official advice regarding the intentions of the Chinese government and explanations from St. Petersburg, are awaited anxiously. In the meantime the British government is not taking active measures, although Foreign Secretary Lansdowne intends to circulate pourparlers looking to joint action from Washington, London and Tokio, provided further stract of the Russian demands.

A press representative is authorized by the foreign office to say that if the Chinese government correctly represents Russia's claims, these claims constitute an absolute breach of all the undertakings given in connection with Manchuria and utterly abrogate the principles of the open door, territorial division and international comity to which the British govern-Florence, of Stanford, was horribly ment constantly and publicly has committed itself. It is added that in these principles Great Britain has always acted with the United States, and it is presumed that similar feelings exist at Washington. Nothing, however, is definitely known, as, with the exception of the British minister to China, no British ambassador has

It is pointed out that Russia's explanation may throw a different light on her demands, although in official circles here there is a frank expression of the belief that Russia has no intention of evacuating Manchuria, and that she hopes, after demanding the maximum, to secure a compromise.

Even the most conservative see in her demands a determination to obtain practical sovereignty of that nortion of the Chinese empire. Enforcement of the demands on Russia's part, it is believed, might entail an international war-a veritable baccle of Armageddon.

The Russian demands were contained in a notification sent to Prince Ching, president of the Chinese foreign office, by M. Planson, Russian charge a'affaires at Peking. He stated that no further steps would be taken toward the evacuation of Manchuria until these demands were acceded to.

Some persons are just finding out that Henry Youtsey is a bad man.

It may finally appear that Youtsey wasn't the only bad man in that gang.

Ir oughtn't be thought incredible that Howard could have fired the shot that laid Gov. Goebel in his grave in face of the testimony that Youtsey has given, and the reputation that the accused enjoyed at his mountain home for just such work.

The Ohio State Brewers' Association has taken a radical step in an effort to stem the tide of town after town in Ohio voting itself dry. The brewers have decided to work for closed saloons in small cities and towns on Sundays. They want to save their business in the big cities. It is the persistent violation of the Sunday closing laws that has resulted in such a strong anti-liquor sentiment most everywhere, and this sentiment is growing. If the saloon keeper is wise he will discharge his Sunday "look-out," close his doors on the Sabbath and be content with six days in the week.

OTHER CAUSES,

And Not the Pulling of the Tooth, May Have Caused That Death in Fleming.

Mrs. Frances Corvill, aged twenty-one, who died at Peck's Ridge, Fleming County, from blood poisoning, resulting from having a tooth extracted some time ago.

Editor Bulletin: The above is not the only death from tooth extraction reported from Fleming County in the last few years. I will venture if again Tuesday looking after some local the facts were reported in its true light you have one of three causes that produced the blood poison in this case-unclean forceps, a septic hyperdermic needle or a solution of cocaine that dentist that causes death from tooth extraction in nine cases out of ten knows full well that the fault is lack of precaution on his part. Tooth extraction is nothing more than a surgical operation of minor nated forceps and remove same without injury to the tissues surrounding the tooth with the unclean forceps you can expect good results. Do you imagine that the surgeon who had an operation to perform in the mouth would permit a dentist to take from his pocket or case a pair of forceps and extract teeth in connection with his operation without first seeing that the forceps were in the same condition as his own instruments?

While this article says death from tooth extraction, there may have been predisposing aside from the extraction. I make eloquent appeals to my professional brothers on all occasions to be clean with their instruments, not only forceps, but all kinds that draw blood. Our patients bring us infection innocently in most cases. In others, if I can get relief, I do not care who suffers from my indiscretion, and therefore I can say I know you and fear you not. I stand between you and innocent blood with fire and water that purifies and makes infection clean.

SAD ACCIDENT.

Little Searles Wood Probably Fatally Wounded by His Brother Charles Last Evening.

A distressingly sad accident occurred late last evening at the home of Mr. and Mrs. N. S. Wood, of Forest avenue.

Searles, their nine-year-old son, was shot and probably fatally wounded by his brother Charles, aged twelve. The children had found their father's revolver, a .44 calibre weapon, and were playing with it, not knowing it was loaded. Charles had the weapon and was seated on a bed. Searles was standing on the It's said that a well-known and wealthy porch, at a window, some five or six feet distant, when the weapon was discharged. tered a little below and to the right of the right nipple, passing through the Mrs. Wm. IMPORTANT ANNOUNCEMENT OF THE MAYSVILLE GAS COMPANY.

Under 2000 cu. ft. of Gas \$1.50 per 1000. Over 2000 cu. ft. of Gas and under 3000 cu. ft. \$1.25 per 1000.

3000 cu. ft. of Gas and over \$1 per 1000.

At a meeting of the Board of Directors of the Maysville Gas Company March 28th, 1903, it was ordered that on an after the first day of April, 1903, the above sliding scale of price of gas for all purposes, fuel and illuminating, should go into effect for all private consumption, and that all rates and discounts heretofore made are hereby abolished. abolished.

rates and discounts heretofore made are hereby abolished.

It was further ordered that after the first of April the old rule of the company "gas will be turned off if account is not paid with five days after presentation" shall be enforced, impartially and indiscriminately, regardless of whom it may concern. (This action was taken not to appear arbitrary nor with the idea that the accounts of the consumers were not perfectly good at any time during the month, or a year later for that matter, but for the good of all concerned and in order that this part of the business of the company might be taken up at a specified time during the month and disposed of, and further in order that the time and thought of the company's agents and employees, now so largely occupied with this work of collecting, might for the balance of the month be diverted toward giving consumers of gas better attention and more efficient supply and service.

It was further ordered that beginning with the first of May and for each and every month thereatter, the monthly statement of account of each consumer should be delivered to said consumers by an agent of the company or the first.

a month for seventeen months, at the expiration of which time the range is sole property of consumer. The company has selected to handle the Detroit Jewel Gas Range on account of its acknowledged superiority and wide reputation for durability and economical consumption of gas. The gas company will also handle, at cost price to consumer, the fixtures and mantles of the Welsbach Company in all of their many attractive varieties.

Welsbach Company in all of their many attractive varieties.

Before closing this announcement the gas company wishes to publicly express appreciation of the eminently fair, just and courteous treatment accorded them by his honor, the Mayor, and the Board of Council, particularly the Chairman and members of the Gas Committee of that body, through whose efforts in behalf of the private consumers, the above concession in the price of gas is now announced.

With the assurance to the citizens of Maysville that it will be the earnest effort of the company and its agents to at all times give them their best possible service at the least cost, we beg to remain, very respectfully, Maysville Gas Co.

P. S.—On and after April 1st the gas company will have on exhibition at the plumbing establishment of Mr. Larry Langfels on Market street, samples of the Detroit Jewel Gas Ranges, to the inspection of which those interested are cordially invited. You can leave your order for a range with any representative of the gas company, with Mr. Langfels or your regular plumber, with whom you will have to make arrangements for the connecting and fitting up of range in case of the placing of order.
